

FDA-approved meds for treatment of specific cancers

Cancer	Medicine
Bladder Cancer	Atezolizumab Avelumab Cisplatin Doxorubicin Durvalumab Enfortumab Vedotin-ejfv Erdafitinib Mitomycin Nivolumab Pembrolizumab Thiotepa Valrubicin
Bone Cancer	Dactinomycin Denosumab Doxorubicin Methotrexate
Brain Tumors	Bevacizumab Carmustine Everolimus Lomustine Temozolomide
Breast Cancer	Abemaciclib Ado-Trastuzumab Alpelisib Anastrozole Atezolizumab Capecitabine Cyclophosphamide Docetaxel Doxorubicin Epirubicin Eribulin Everolimus Exemestane Fam-Trastuzumab Deruxtecan-nxki Fluorouracil Fulvestrant Gemcitabine Goserelin

	<p> Ixabepilone Lapatinib Letrozole Megestrol Methotrexate Neratinib Olaparib Paclitaxel Palbociclib Pamidronate Pembrolizumab Pertuzumab Ribociclib Sacituzumab Govitecan-hziy Talazoparib Tosylate Tamoxifen Thiotepa Toremifene Trastuzumab Tucatinib Vinblastine </p>
Cervical Cancer	<p> Bevacizumab Bleomycin Pembrolizumab Topotecan </p>
Colon Cancer	<p> Bevacizumab Capecitabine Cetuximab Fluorouracil Ipilimumab Irinotecan Leucovorin Nivolumab Oxaliplatin Panitumumab Pembrolizumab Ramucirumab Regorafenib Trifluridine and Tipiracil Ziv-Aflibercept </p>
Rectal Cancer	<p> Bevacizumab Capecitabine Cetuximab Fluorouracil Ipilimumab Irinotecan </p>

	<p>Leucovorin Nivolumab Oxaliplatin Panitumumab Pembrolizumab Ramucirumab Regorafenib Trifluridine and Tipiracil Ziv-Aflibercept</p>
<p>Endometrial Cancer</p>	<p>Lenvatinib Megestrol Pembrolizumab</p>
<p>Esophageal Cancer</p>	<p>Docetaxel Nivolumab Pembrolizumab Ramucirumab Trastuzumab Trifluridine and Tipiracil</p>
<p>Gastrointestinal Stromal Tumors</p>	<p>Avapritinib Imatinib Regorafenib Ripretinib Sunitinib</p>
<p>Gestational Trophoblastic Disease</p>	<p>Dactinomycin Methotrexate Vinblastine</p>
<p>Head and Neck Cancer</p>	<p>Bleomycin Cetuximab Docetaxel Hydroxyurea Methotrexate Nivolumab Pembrolizumab</p>

<p>Hodgkin's Disease</p>	<p>Bleomycin Brentuximab Vedotin Carmustine Chlorambucil Cyclophosphamide Dacarbazine Dexamethasone Doxorubicin Lomustine Mechlorethamine Nivolumab Pembrolizumab Prednisone Procarbazine Vinblastine Vincristine</p>
<p>Kaposi Sarcoma</p>	<p>Doxorubicin Paclitaxel Interferon Paclitaxel Vinblastine</p>
<p>Kidney (Renal Cell) Cancer</p>	<p>Aldesleukin Avelumab Axitinib Bevacizumab Cabozantinib Everolimus Ipilimumab Lenvatinib Mitomycin Nivolumab Pazopanib Pembrolizumab Sorafenib Sunitinib Temozolomide Tivozanib</p>
<p>Acute Myeloid Leukemia</p>	<p>Asparaginase Blinatumomab Calaspargase Pegol-mknl Clofarabine Cyclophosphamide Cytarabine Dasatinib Daunorubicin Dexamethasone Doxorubicin</p>

	<p>Imatinib Inotuzumab Ozogamicin Mercaptopurine Methotrexate Nelarabine Pegaspargase Ponatinib Prednisone Tisagenlecleucel Vincristine</p>
<p>Acute Lymphoblastic Leukemia</p>	<p>Arsenic Trioxide Cyclophosphamide Cytarabine Daunorubicin Dexamethasone Doxorubicin Enasidenib Gemtuzumab Gilteritinib Glasdegib Idarubicin Ivosidenib Midostaurin Mitoxantrone Thioguanine Venetoclax Vincristine</p>
<p>Chronic Myeloid Leukemia</p>	<p>Bosutinib Busulfan Cyclophosphamide Cytarabine Dasatinib Dexamethasone Hydroxyurea Imatinib Nilotinib Omacetaxine Ponatinib</p>
<p>Chronic Lymphocytic Leukemia</p>	<p>Acalabrutinib Alemtuzumab Bendamustine Chlorambucil Cyclophosphamide Dexamethasone Duvelisib Fludarabine Ibrutinib</p>

	<p>Idelalisib Obinutuzumab Ofatumumab Prednisone Rituximab Venetoclax</p>
<p>Hairy Cell Leukemia</p>	<p>Cladribine Interferon Moxetumomab</p>
<p>Mast Cell Leukemia</p>	<p>Midostaurin</p>
<p>Meningeal Leukemia</p>	<p>Cytarabine</p>
<p>Liver Cancer</p>	<p>Atezolizumab Bevacizumab Cabozantinib Lenvatinib Nivolumab Pembrolizumab Pemigatinib Ramucirumab Regorafenib Sorafenib</p>
<p>Non-Small Cell Lung Cancer</p>	<p>Alectinib Atezolizumab Bevacizumab Brigatinib Capmatinib Carboplatin Ceritinib Crizotinib Dabrafenib Dacomitinib</p>

	<p>Docetaxel Doxorubicin Durvalumab Entrectinib Erlotinib Everolimus Gefitinib Gemcitabine Ipilimumab Lorlatinib Methotrexate Necitumumab Nivolumab Osimertinib Paclitaxel Pembrolizumab Pemetrexed Pralsetinib Ramucirumab Selpercatinib Tepotinib Trametinib</p>
<p>Small Cell Lung Cancer</p>	<p>Atezolizumab Doxorubicin Durvalumab Etoposide Everolimus Lurbinectedin Methotrexate Nivolumab Pembrolizumab</p>
<p>Malignant Mesothelioma</p>	<p>Pemetrexed Ipilimumab Nivolumab</p>
<p>Melanoma</p>	<p>Aldesleukin Binimetinib Bravtovi Cobimetinib Dabrafenib Dacarbazine Encorafenib Imlygic Interferon Ipilimumab</p>

	<p>Nivolumab Pembrolizumab Talimogene Laherparepvec Trametinib Vemurafenib</p>
<p>Multicentric Castleman Disease</p>	<p>Siltuximab</p>
<p>Multiple Myeloma</p>	<p>Belantamab Mafodotin-blmf Bortezomib Carfilzomib Carmustine Cyclophosphamide Daratumumab Daratumumab and Hyaluronidase-fihj Elotuzumab Isatuximab-irfc Ixazomib Lenalidomide Melphalan Melphalan flufenamide Pamidronate Panobinostat Plerixafor Pomalidomide Selinexor Thalidomide Zoledronic Acid</p>
<p>Myeloproliferativ e Neoplasms</p>	<p>Arsenic Trioxide Azacitidine Cyclophosphamide Cytarabine Dasatinib Daunorubicin Decitabine Doxorubicin Fedratinib Imatinib Mesylate Nilotinib Ruxolitinib</p>

<p>Neuroblastoma</p>	<p>Cyclophosphamide Dinutuximab Doxorubicin Vincristine</p>
<p>Non-Hodgkin's Lymphoma</p>	<p>Acalabrutinib Belinostat Bendamustine Bleomycin Bortezomib Brentuximab Vedotin Brexucabtagene Autoleucl Carmustine Chlorambucil Copanlisib Cyclophosphamide Denileukin Diftitox Dexamethasone Doxorubicin Duvelisib Ibritumomab Ibrutinib Idelalisib Interferon Lenalidomide Methotrexate Mogamulizumab-kpkc Nelarabine Obinutuzumab Pembrolizumab Plerixafor Polatuzumab Vedotin-piiq Pralatrexate Prednisone Rituximab Romidepsin Selinexor Tafasitamab-cxix Tazemetostat Hydrobromide Tisagenlecleucl Umbralisib Venetoclax</p>

	<p>Vinblastine Vincristine Vorinostat Zanubrutinib</p>
<p>Ovarian, Fallopian Tube, or Primary Peritoneal Cancer</p>	<p>Bevacizumab Carboplatin Cisplatin Cyclophosphamide Doxorubicin Gemcitabine Melphalan Niraparib Olaparib Paclitaxel Rucaparib Thiotepa Topotecan</p>
<p>Pancreatic Cancer</p>	<p>Erlotinib Everolimus Fluorouracil Gemcitabine Irinotecan Mitomycin Olaparib Paclitaxel Sunitinib Tarceva</p>
<p>Penile Cancer</p>	<p>Bleomycin</p>
<p>Prostate Cancer</p>	<p>Abiraterone Apalutamide Bicalutamide Cabazitaxel Darolutamide Degarelix Docetaxel Enzalutamide Flutamide Goserelin Leuprolide Mitoxantrone Nilutamide Olaparib Rucaparib</p>

	Sipuleucel-T
Retinoblastoma	Cyclophosphamide
Rhabdomyosarcoma	Dactinomycin Vincristine
Melanoma	Aldesleukin Cobimetinib Dabrafenib Dacarbazine Interferon Ipilimumab Nivolumab Pembrolizumab Talinogene Laherparepvec Trametinib Vemurafenib
Merkel Cell Carcinoma	Avelumab Pembrolizumab
Basal Cell Carcinoma	Fluorouracil Imiquimod Sonidegib Vismodegib
Cutaneous Squamous Cell Carcinoma	Cemiplimab-rwlc Pembrolizumab
Soft Tissue	Dactinomycin Doxorubicin Eribulin

Sarcoma	Imatinib Pazopanib Tazemetostat Trabectedin
Stomach Cancer	Docetaxel Doxorubicin Fluorouracil Mitomycin Pembrolizumab Ramucirumab Trastuzumab Trifluridine and Tipiracil
Testicular Cancer	Bleomycin Cisplatin Dactinomycin Etoposide Ifosfamide Vinblastine
Thyroid Cancer	Cabozantinib Dabrafenib Doxorubicin Lenvatinib Selpercatinib Sorafenib Trametinib Vandetanib
Vulvar Cancer	Bleomycin
Wilms Tumor	Dactinomycin Doxorubicin Vincristine
